

## **ENVIRONMENTAL POLICY**

Three Dragons is committed to continual improvement in our environmental performance, minimising our environmental impact and making resource efficiency a core requirement of all our operations. To do so, the steps we will take are:

### **Energy**

We will monitor and manage our consumption and use of energy and have developed an inhouse carbon footprint calculator to help us to do this. We will work to reduce the consumption of energy and to reduce our contribution to emissions of gases and other pollutants which are believed to contribute to climate change

### **Water**

We will work to reduce the consumption of water and reduce discharges

### **Waste**

We will work to reduce the volume of waste we create by, wherever possible,:

1. reducing consumption of;
2. repairing;
3. re-using;
4. recycling.

### **Transport**

We will monitor and work to reduce our contribution to environmental emissions from travel undertaken for business purposes. We recognize the contribution that remote working can make to reducing carbon emissions and will continue to utilize this method of working wherever possible.

### **Procurement**

We will purchase goods and services to minimise adverse environmental effects. We will use local suppliers where appropriate and will encourage our suppliers to commit to improving environmental performance.

### **Our team**

Team members recognise their responsibility in contributing to good environmental management. We will seek to harness and channel the enthusiasm and interest shown by our team and will provide appropriate information and support to ensure that all staff exercise their environmental responsibility.

### **Action and monitoring**

Three Dragons will incorporate the principles set out in this environmental policy into its day to day operations

See also our Sustainability Policy

We will monitor the operation of the policy and review the progress we have made each year, to make sure the policy is achieving its aims.
