

ENVIRONMENTAL POLICY

Three Dragons is committed to continual improvement in our environmental performance, minimising our environmental impact and making resource efficiency a core requirement of all our operations. To do so, the steps we will take are:

Energy

We will monitor and manage our consumption and use of energy... We will work to reduce the consumption of energy and to reduce our contribution to emissions of gases and other pollutants which are believed to contribute to climate change.

Water

We will work to reduce the consumption of water and reduce discharges.

Waste

We will work to reduce the volume of waste we create by, wherever possible:

1. reducing consumption;
2. repairing;
3. re-using;
4. recycling.

Transport

We will monitor and work to reduce our contribution to environmental emissions from travel undertaken for business purposes. We recognize the contribution that remote working and meetings can make to reducing carbon emissions and will continue to utilize these methods of working wherever possible.

Procurement

We will purchase goods and services to minimise adverse environmental effects. We will use local suppliers where appropriate and will encourage our suppliers to commit to improving environmental performance.

Our team

Team members recognise their responsibility in contributing to good environmental management. We will seek to harness and channel the enthusiasm and interest shown by our team and will provide appropriate information and support to ensure that all staff exercise their environmental responsibility.

Action and monitoring

Three Dragons will incorporate the principles set out in this environmental policy into its day-to-day operations

See also our Sustainability Policy

We monitor the operation of the policy on a regular basis through monthly discussion at team meetings, to make sure the policy is achieving its aims.

Policy sign-off by Directors: KD / LC (August 2024)
